PROFESSIONAL SUMMARY

A detailed Junior Web Developer with 2 years of experience in developing with HTML, CSS, JavaScript and React, and an enthusiasm for learning new skills. Prior to entering the tech industry, I've spent over 10 years in the Retail Management field. I bring with me collaborative, communicative, problem solving traits, that allow me to develop strong web applications.

SKILLS

HTML	CSS	SCSS	JavaScript
jQuery	ReactJS	Rest API	Responsive Design
Figma Conversion	Problem Solving	Leadership	Communication

EXPERIENCE

Web Developer II

Q4 Inc., Toronto, ON, Jan 2022 - Sep 2023

• Developed and rebranded over 30 IR sites for clients, including Amazon, American Airlines, and General Mills, using Q4's proprietary CMS and our designer's Figma concepts.
• Developed responsive websites with an emphasis on accessibility (WCAG), cross-browser compatibility and clean, high-quality code.
• Utilized Git to maintain code repositories for both website templates, and client projects.
• Participated in agile development methodologies such as Kanban for efficient project management.
• Assisted the Support team in providing post-launch and after hours technical support to clients experiencing issues with their websites.
• Assisted the Optimization team to debug and improve upon company templates.

Tech stack: HTML, CSS/SCSS, JavaScript/jQuery

EDUCATION

Bootcamp: Web Development
Juno College, Toronto, ON, Jul 2021

Bachelor of Commerce (B.Comm): Retail Management
Ryerson University, Toronto, ON, Apr 2014
